Re: Deficient Notice of Intention to Commence Small Mining Activities, Windy #3, S/053/071, Washington County, Utah

Dear Mr. Hafen:

Thank you for your Notice of Intention and \$100.00 initial permit fee, received by the Division March 18, 2002, concerning your proposed Windy #3 small mining project located in Section 13, T41S, R18W, SLBM, Washington County, Utah. The notice does not satisfy the requirements of Rule R647-3 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq., Utah Code Annotated. The maps mentioned on page three of the application was not included with the submittal. The referenced maps need to be submitted.

The Division received a BLM letter written to you discussing the T & E species located near a proposed access to the site. The letter suggested another route be taken to avoid this problem. If a new road was built to access the site, the area affected will need to be included in the total affected acreage of this permit, and will have to be reclaimed when you elect to close the site.

For your future reference, we have enclosed a Notice of Intention to Commence Small Mining Operations form (MR-SMO) for your use and a copy of the small mining rules. Do not hesitate to contact me if you have any questions regarding the form.

The Division will suspend review and await your amended Notice of Intention. In reply, please refer to file number S/053/071. Thank you for your cooperation.

Sincerely,

Doug Jensen
Senior Reclamation Specialist
